

NEXiA™

ScriptCenter®

ScriptCenter & NEXiA™ software integration streamlines pharmacy workflow with one centralized solution

ScriptCenter bi-directional MHS Genesis connection exists through the interface with NEXiA™

- No separate ScriptCenter workstation needed
- MHS Genesis Data retrieved by ScriptCenter from NEXiA™
- Automatically change a prescription status in NEXiA™ to “picked up” when a prescription is retrieved out of ScriptCenter
- Signature capture sent to NEXiA™, providing a complete fulfillment record in a single system
- Overall reduction of manual input of manual data

Formerly known as PharmASSIST Symphony, NEXiA™ is iA's intelligent enterprise fulfillment software platform.
